Motion Made by

Seconded by

PUBLIC COMMENTS: N/A

ZONING ADMINISTRATOR COMMENTS/REPORT: Rod reported that the footing inspection for the town hall is July 11th, 2018

REPORTS FROM THE AD HOC COMMITTEES:

Jessica for the Noise ordinance was not present for meeting, no new news.

Frank for the Wind ordinance presented a marked up draft from the township lawyer. Members of the planning commission went over the draft and discussed a few items, and concerns. Mike questioned if we should look into verbiage on the "special use" permit since it is referenced in the Wind Ordinance. Jerry showed concern that the draft is still too vague and would like to bring in more experience/educated speakers that have dealt with this in their township. The board agreed to have a special meeting if able to set up to meet with said speakers, but must be in a timely manner to stay on task with having a public hearing by September. A larger print copy was also requested for better reviewing. Frank will contact the Attorney to see if we can get one.

OLD BUSINESS:

Adult foster care definition/verbiage is at the attorney's office for review

NEW BUSINESS:

Jerry-N/A

Leigh-N/A

Mike- N/A

Frank- would like to speak with the township to get a better understanding of job descriptions and roles. It was mentioned to find out from other townships how they utilize police power on ordinances, and target shooting within the township. Would like to see a township planner available as to use the attorney less. And would like for the township to give direction on how they want the planning commission to operate.

Maurie-N/A

Rod- Stated that a Marquette gentleman contacted him and offered to write our Solar Ordinance.
